I. INTRODUCTION

Language cannot be separate from human life aspect. In every day communication the tool that is often used to communicate is language, both in the form if written language and oral language (Hampp, Paula L. 2019: 15). It allows people to express their messages, feelings, emotion, and exactly used to communicate each other. Language is used by everyone with various purposes. According to language is the most important aspect in the life of all human beings. Halliday & Matthiessen (2004: 19), it is possible to refer to language as text and as system, as
sound, as writing and as wording, as structure as resource. As it can be seen, language can be referred to many things but the most important function of language is to create and express meaning. Language is a resource of the construction of the meaning. With the help of lexical and grammatical structures it is possible to express different meanings.

Language has a lot of functions. One of the is expressive function. According to Halliday and Hasan (1991: 15), expressive function is the expressive being language that orientation toward the self. It means that individual express their feeling by language. Sarah Kamagi, D.J.Wowor, Elisabeth Z. Oroh (2018: 847) Language has a function as a tool of communication used by human to express their thoughts, feelings, desires, and action. Then, expressive function also expresses personal feelings, thoughts, ideas, and opinions, with different choice words, intonation, etc. These expressions are submissive to social factors and to the nature of the expression as negative or positive. (Holmes, 1992: 255). According to (Hampp, Paula L. 2019: 15) Language is a tool for expressing yourself, a communication tool, and a means for social control.

Figurative language is a language used by poets to say things in an unusual way, namely indirectly to express their meaning. The figurative language is a deviation from the language of apprehends as the ordinary, or standard, significance or sequence of words, in order to achieve some special meaning or effect. According to Wolosky (2001), personification is a figure of speech in which human qualities are attributed to an animal, object, or idea. Personification refers to a figure of speech equating things with humans, inanimate objects can do, thinking, and so on like humans. It becomes the type of figurative languages that attaches attributes of human beings to things that are lifeless and abstract ideas.

Basically, a song is a poem that is sung because both have similarities in elements such as sound, rhythm and rhythm which are the formal elements of a poem. In addition to these formal elements must also be considered when determining the meaning of a song. According to F.B Sumigar, M.G Maru & I.J Tuerah (2019:107) “One of communication is a song. Similar to a poem, a song applies figurative languages. It is a language expression, whose meaning is different from its literal one, it drives listeners to spend extra effort to understand the meaning of the song”. Mariah Carey is female well-known singer that can be said a great diva because her career in international music industry. As most song lyrics, Mariah Carey’s song lyrics contain various figurative languages, including the use of personification. From the reasons above, the writer is interested to
conduct a research on personification expressions in Mariah Carey’s song lyrics.

Not all the obtain data in this research are important. It means just take the important information and unimportant information should be ignored. In this process of data reduction, the researcher selected, focuses and abstracted the data in the notebook. The data reduction is done during research activities. and on this case, the researcher
reduce the information during the activities of research, so researcher might be found the data that not support the researcher’s needed.

2. Data Display

The Data display is use to represent the result other research. After the data has been finished, and researcher can able to check and verify it to be meaningful data. it means describing data in the form of writing text or spoken words.     With you by my side
    Orange clouds roll by
    They burn into your image
    And you’re still alive (Close My Eyes, line 31-36)
23) I wanna be your babydoll
    Wrap me up nice and tight
    Love me all through the night
    Come lay me down
    Enfold me in your arms (Babydoll, line 11-15)
24) A full moon (yeah yeah)
Is waiting in the twilight
Maybe soon
(Sweetheart, line 9-11)

You are the one for me
And it's evident
And your eyes told me so
And your eyes let me know
(When I Saw You, line 26-27)

While roman candles
Went soaring above us and baby
(Fourth of July, line 10-11)

Everyday crucial situation
wrackin' my mind
Tryin' to break me down
(Breakdown, line 40-41)

Alone will tell
If you feel the way I feel
When I look in your eyes
(After Tonight, line 20-22)

Flower taught me how to pray
But as I grew, that flower changed
She started failing in the wind
(Petals, line 5-7)

All my life
My love's been waiting for you
All my life
My heart's been waiting too
(All my life, line 9-12)

Having reduced and obtained the personification expressions in Mariah Carey’s Song lyrics, the researcher displayed the data by grouping the personification expressions based on their types as contributed by Wolosky (2001:96). He argued that there are two types of personification namely direct personification and indirect personification. Direct personification are considered to be direct because these personification involve something that usually happened, even though it’s being described in an unrealistic way. Direct personification tends to be more powerful than indirect one. On the other hand, indirect personification needs readers’ more imaginantion and interpretation to gain the meaning of the words personified by the writer or composer.

The chart of the personification use is present below.
